Women's Remedies

KLIFEM 50ML

KLIFEM for treatment of perimenopause, climacteric conditions, including menstrual problems, hot flashes and night sweats.

KLIFEM drops holistically regulate hormonal imbalances and treat climacteric symptoms that women experience, including fluor crus, delayed and irregular menstruation, tendency to obesity, emotional instability, missed periods, menopausal flush, breast tenderness, hot flashes and night sweats. Use of homeopathic-spagyric medications can also help delay menopause by up to two years and allow women to eventually make a symptom-free transition.

Recommended Dosage: Adults 15-20 drops 2X per day directly or in water.

Ingredients:

Aletris farinosa 2X fluor crus, excessive bleeding
Graphites 8X delayed menstruation, soreness, obesity
